## Who Will You Vote For Virginians

Halifax, Va., Sept. 26th.—Speaking before a tremendous and enthusiastic audience at Halifax this afternoon Congressman H. D. Flood created a sensation by reading a letter from Judge George J. Hundley, of Farmville, addressed to the chairman of the Democratic State Central Committee, charging that Colonel Henry W. Anderson, in an address delivered at Farmville on August 30th, had expressed himself as ashamed of the star in the United States flag which represented the State of Virginia. This astounding disclosure fell as a thunder bolt upon the voters of the Fifth District who were present at the speaking.

The letter, signed by Judge Hundley, the oldest circuit judge in Virginia, was written under date of September 9th. It was in reply to a communication from J. N. Brenaman, secretary of the Democratic State Committee. It reads in full, as follows:

Office of Geo. J. Hundley, Judge of the Fifth Judicial Circuit of Virginia.

Farmville, Va., Sept. 9, 1921. Hon. J. N. Brenaman, Sect. Democratic Committee, Richmond, Va.

My dear Mr. Brenaman: Yours of the 6th instant received, and I write you, as accurately as I can, what occurred at the time of Colonel Anderson's speech at Farmville. I note that you say the incident may be used by the committee. I have no objection to your using it, provided it is not alone upon my statement, for it has been made public.

It was published in the Farmville Herald, and quoted and commented on by the Lynchburg News. I intended that it should become public property, and that there should be no issue of veracity between him and myself, so I repeated to him what he had said, in the presence of the audience, and asked him if I had understood him correctly, and he admitted it.

He said:—When he was in the Balkans, trying to help and uplift those miserable people, he carried on the front of his automobile, the American flag, and the women and children would come up and kiss the flag, but that he was really ashamed to let them do this, for he felt that he was practicing a fraud upon them, to allow them to kiss a flag having upon it a star representing the State of Virginia whose government was so unrepudiable, so despotic, and so disgraceful as that of the State of Virginia.

I waited quietly, until he closed, but before the audience dispersed, called upon him to explain that statement, repeating what I had understood him to say. He did not deny it, but admitted it, with an awkward attempt to explain and which did not explain at all. I did not discuss anything with him but contented myself with saying, "Col. Anderson, there are men here who followed the flag of Virginia for four years in the Civil War, and those who fought for that flag of ours in France, and shed their blood for it, and I want to say for them, that in all our history, there never has been a time, and there never will be a time, whilst the sun shines, that such a thing, as you have said, could be true of the Star representing our glorious old State on the Flag of our Common Country."

With kind regards and best wishes, I am, Yours sincerely,

Geo. J. Hundley. Judge Hundley, who presides over the fifth judicial circuit, is a veteran Virginia jurist and a veteran of the Civil War. He has a son, Lieutenant Robert G. Hundley, who saw service on the fighting front in France. Judge Hundley enlisted first with the Albemarle Howitzers, after which he served with the Fifth Virginia Infantry. He resigned from this regiment to enter the cavalry, in which arm of the service he remained until the close of the war between the states. He was seriously wounded while leading a cavalry charge. Lieutenant Robert G. Hundley, also a war veteran, spilled his blood in France in defense of the Stars and Stripes. His record was a brilliant one. He served with Company B, 360th Infantry, 77th Army Division; with Company F, 120th Infantry, 30th Division, and with Company B, of the 389th New York. This latter regiment was brigaded with troops in the 161st French Army Division, Fourth French Army. Lieutenant Hundley, who is now stumping for the Democratic ticket, was desperately wounded in the campaign offensive on September 30th, 1918. Four major operations were performed on him and for some time his life was despaired of. He saw eleven months active service in the Western front in France.

Col. Anderson Wrong

State Chairman H. D. Flood, refuting the charge repeatedly made by Colonel Henry W. Anderson, and spread through the State by Republican campaign orators, that there were 45,000 persons in Virginia connected with or in the employ of democratic state and local authorities, today gave out the following statement:

"The Republican candidate for governor in his speeches makes the statement that there are 'over 45,000 persons connected with or employed by the state and local governments of this Commonwealth.' This statement before had been deliberately embodied in the Republican platform adopted at Norfolk and is being repeated by all or the orators the Republican party is sending through Virginia to slander and traduce the state and its people."

"I have made careful inquiry to ascertain what basis, if any, there is for these figures, and have been unable to secure any facts or figures that could by any stretch of the imagination justify this exaggerated statement."

"The following is a list of officers" connected with the state and local governments of this commonwealth:

Examiners of Records 32. Judges 57. Officers and employees provided for in State Budget and various state institutions 3,400. 123 Local Boards of Review, three months each 369. 23 Cities, average of twenty officers each, 460. 100 Counties, average of 10 officers each, 1,000. 450 Magisterial Districts, average of seven officers, 3,150. County and City treasurers 123. Clerks of Courts 127. Commis-

sioners of the Revenue 230. School Trustees 1,659. School Superintendents 109. Examiners of Clerks of Courts 125. Total 10,841.

"I believe this number is a correct one, it is certainly approximately correct. I have not included the 6,500 Notaries Public because they are appointed for the convenience of the people and not only cost the state nothing, but actually pay the state five dollars each for their commissions."

"The total number of officers employed by the state and local governments are less than one-fourth the number claimed by Colonel Anderson."

"The Republican claim is but a sample of the inaccuracy of charges so freely set forth by the Republican candidate for governor and his followers."

"Other statements and criticisms of the administration of the affairs of Virginia by the successive Democratic administrations are even more inaccurate and misleading than that answered above."

## LITTLE ONES BECOME BIG ONES

Many of our friends ask us why we put forth such efforts as we do to get small accounts, many of which are started with deposits of only one dollar. It is true that such accounts do not begin to repay the cost of handling.

However, we are building for the future. These small accounts will grow. Many of them will in time become very profitable. The small depositor of today will be the large depositor of tomorrow. The boy who opens the dollar savings account will in a few years be the business man with a valuable commercial account.

We want the youngsters to get in the habit of banking with us now, so that they will stay with us during the years to come.
